

## CALL FOR PAPERS

### 4<sup>th</sup> BAEE Research Workshop on Energy Economics

**October 30<sup>th</sup>, 2015** - Venue: Center for Operations Research and Econometrics, Université catholique de Louvain, Louvain la Neuve

The Benelux Association for Energy Economics (BAEE) is organizing its fourth Research Workshop on Energy Economics on Friday October 30<sup>th</sup>, 2015. This small-scale workshop will take place in Louvain la Neuve, in Belgium. It offers Master and PhD students as well as experienced researchers from the Benelux the opportunity to present a paper on energy economics and to interact with colleagues. The paper does not need to be original (no proceedings will be published) but it must be current.

The workshop covers all topics related to energy economics, from environmental policy and reliability of energy networks to regulation and competition issues. We will accept papers in economic theory, empirical work and economic policy, and are also open towards interdisciplinary work such as techno-economic energy models or legal-economic analysis of energy policy. We especially encourage Master and PhD students to submit their work. A scientific committee will review the papers.

**Submission of papers:** If you would like to present a paper, please register at [our website](#) before September 15, 2015. You will be asked to include an extended abstract of maximum 300 words or a finished paper. The extended abstract should clearly indicate the research question, the research methodology and the contribution of the paper. Papers should be between 10 and 50 pages. We accept recently published as well as draft papers, Master theses and chapters of PhD dissertations. Full papers are due by October 5<sup>th</sup>.

The **scientific committee** will be headed by Anthony Papavasiliou (Louvain la Neuve) and Laurens de Vries (TU Delft).

The program and the list of presenters will be confirmed by October 15, 2015.

We hope you will join us for an intellectually stimulating workshop on energy economics.

Yours sincerely, the BAEE organization committee,

Anthony Papavasiliou and Laurens de Vries
