

## **IAEE European PhD-students Day Outline and Call for Participation**

**9 September 2012**

**University Ca' Foscari of Venice  
Economics Department San Giobbe  
13h45 – 17h30**

The IAEE European PhD Day initiative was created for the first time during the 2011 IAEE International Conference in Stockholm. It was organised in order to promote the collaboration between Student Chapters by the International Association for Energy Economics (IAEE) together with the Swedish Association of Energy Economics (SAEE) and was hosted by the Stockholm School of Economics, accompanying the 34<sup>th</sup> IAEE International Conference (19 to 23 June 2011).

This year the PhD Day will take place at University Ca' Foscari of Venice at the Economics Department at San Giobbe<sup>1</sup> with the collaboration of the YEESS Association. Participants of both associations would have the possibility to present their work. The main objective is to provide a platform for presenting an in-depth discussion of research of PhD-students in the field of energy economics. The PhD Day shall deepen the exchange among PhD-students and between junior and senior scientists. The objective of this PhD Day is not to replace student participation in the 12<sup>th</sup> IAEE European Conference! The organisers of the 12<sup>th</sup> IAEE European Conference fully anticipate students who have already had their abstracts accepted for presentation in Stockholm to still present in traditional Concurrent Sessions.

The IAEE, in cooperation with the Austrian, French, German, Italian, Nigerian, Norwegian and Swiss student chapters, will organise sessions on different topics of energy economics. Student speakers must submit their papers in advance to allow preparation of session chairs. The schedule of the PhD Day aims to allow for increased available discussion time for each paper compared to regular IAEE conferences. All student participants of the 12<sup>th</sup> IAEE European Conference will be invited to attend the PhD Day and efforts will be made to bring in senior researchers and practitioners.

**Deadline for abstract submission: 1 June, 2012**  
**Submitted abstracts should follow the template used for the 12th IAEE  
European Conference**
